

Cleaning Instructions

Plexiglass Sneeze-Guards

Cleaning and Maintenance for Plexiglass Sneeze-Guards

Clean sneeze guards with warm water and a mild soap or detergent solution, and thoroughly rinse with clean water.
(Recommended Novus #1 or Brilliance)

Dry with a soft sponge to prevent water spots.

Never use abrasive or highly alkaline cleansers.

Never scrape with razor blades or other sharp instruments.

Never use benzene, acetone, or carbon tetrachloride.

Never use cleaners such as Windex or 409.
