Modular System

BUFFET SOLUTIONS
Mogogo is led by designers and chefs that are driven by the desire to introduce new, beautiful, and functional products to the market, with an environmentally friendly philosophy in mind.
ABOUT MODULAR COLLECTION

Mogogo’s flagship collection, the Modular System, allows you to use the same components in various ways to create different configurations of products. Our Modular System Line is composed of our Classic and Creative Ranges, and a large variety of complementary accessories.

Our Classic Range consists of buffet tables and shelves that fit each other seamlessly, functioning as building blocks to the Mogogo System. The classic range is characterized by sleek linear design, adaptable to both traditional and more modern, edgier looks.

Our Creative Range comes with a curved design concept. Our Creative system is patented and offers unique features based on our vast experience in large food service operations.

Our stations are carefully designed maintaining a delicate balance between high functionality, durability, and mobility; all in perfect symbiosis with high design standards, providing an ideal solution for the Food and Beverage industry.

MATERIALS

Modular collection tops are made of our innovative BHP material. BHP is a newly composed material that arrived after two years of intense R&D. It merges layers of High-Pressure Laminate with a Vertical Bamboo core (Mogogo’s expertise) creating a lighter yet durable panel that offers new textures and colors. This new material combines the advantages of both bamboo and HPL, perfect for the ever-changing needs of the hospitality industry. BHP is available in a variety of finishes that resemble natural materials such as Bengali Mango Wood, Nero Marquina Marble, and Grey Slate, making it easy to match with any event and decor. The innovative bamboo core of the BHP goes in line with Mogogo’s sustainability motto while the HPL’s outer coating is durable for different environments, hygienic and easy to clean.

Modular segments come in 2 finishes—brushed stainless steel and brushed brass.

Easily cover up parts of your buffet stations with our original quick covers. Both durable and easy to clean, they come in 4 different color options allowing you to easily match any of your event color schemes.

For that extra outdoor feel, add a canopy to your buffet station, made from a sturdy Cordura fabric known for its resistance to abrasions, tears, and scuffs.
The Mogogo Modular System is composed of individual parts, which can be assembled to create endless configurations. These individual components sit at the core of the Mogogo Modular System. In fact, they are utilized as the base for creating Action Stations, Buffet Stations, Bar Stations, and more when combined with add-ons, in order to offer the perfect customized touch for all of your buffet solution needs.

All Buffet Stations have essential elements: tabletops, mid-part segments, and leg segments (permanent or mobile casters). From there, you can start choosing your add-ons: different shelves, sign posts, quick covers, arches, etc., for the ultimate customization.

What is unique about Mogogo’s configurations is the freedom of building any stations you want from the exact same parts. Start with a Basic Station and add shelves: it makes for the ideal Breakfast Station. Add a different tabletop and covers: it becomes an elegant Bar Station. When the sum of parts is bigger than the whole, we deliver on unique and endless possibilities.
Mogogo’s unique Modular system allows its stations to be extremely versatile and functional. By adding different elements you can custom fit any event or venue. These add-ons are easy to incorporate and provide edgy looks that will stand out.

The different finishes combined with brass or stainless steel create infinite options for styling.
Guests’ fascination with chefs, food preparation, and presentation around the Action Station continues to grow and evolve in events today – it’s a great way to add some spice and surprise to your culinary landscape.

Mogogo’s Action Stations are designed to enhance the interactive experience of your guests through elegant design, while providing chefs and F&B professionals all the functional elements they are looking for. From an omelet station to a make-it-your-own dish station, Mogogo Action Stations are extremely modular; our ever-expanding line of add-ons and a wide range of tabletops deliver functionality and authenticity.

Cooking in front of the guest entices all their senses - and we believe beautifully crafted furniture is part of the experience.
CUSTOMIZE YOUR MODULAR STATIONS BY CHOOSING FROM THE DIFFERENT COLORS AND FINISHES AVAILABLE.

SIMPLY CHOOSE YOUR PREFERRED DESIGN COMBINATION BY INSERTING THE CORRESPONDING LETTER TO ITS DESIGNATED SPACE AS DEMONSTRATED BELOW.

BAZAAR ACTION STATION C-MLA-03 GSWW
(shown with optional Silver-Grey quick covers)
As a fundamental functional element to any F&B operation, we believe Buffet Stations no longer need to be hidden under heavy linens nor lifted by the staff.

Mogogo takes an innovative and sustainable approach to Buffet Stations by introducing new design and functionality for linenless F&B Furniture, revealing beautiful clean lines. The presentation of a station is just as important as the quality of food being served and Mogogo offers ideal solutions for Chefs to display their most exquisite dishes. From Classic to Creative, Mogogo Buffet Stations offer a wide range of display and self-service options. Above, add shelves to elevate the dining experience of your guests; below, add our Quick Covers to conceal extra storage space.

Maximize every corner of your catering space by mixing and matching between our Classic Range and Creative Range to reinvent the experience of self-service in events.

DAY & NIGHT
Modular stations can perfectly display breakfast buffets or help entertain guests at the next cocktail party.
WARMING AND COOKING STATIONS

The visual appeal of the colors and textures of the food, the aroma as it is prepared, and the sounds of sizzling pans... Cooking and Warming Stations generate excitement, curiosity, and can be a great catalyst for social interaction.

Now, Cooking and Warming Stations are redesigned as one modern and beautifully crafted element to seamlessly blend with your hospitality design standards. Designed as a modular extension to our existing function-based tabletops, Mogogo Cooking and Warming Stations offer your chefs high-functionality, mobility, and add a sense of theater for a special catering experience.

Your guests want creativity and variety. Introduce them to new culinary territories and let them discover new sensations with Mogogo’s Cooking and Warming Stations.
Customize your Modular Stations by choosing from the different colors and finishes available. Simply choose your preferred design combination by inserting the corresponding letter to its designated space as demonstrated below.

TRANSFER & STORAGE CARTS

Designed for convenience and mobility, Mogogo’s utility carts are an integral part of the Modular system as they make storing and assembling the stations an easy task. Whether it is to push them through the halls, or get in and out of elevators, they make the behind the scenes of your time-sensitive events easier and give you an extra push on productivity. The carts can store up to five large Classic units or four large Creative units while the orange vinyl coated areas ensure comprehensive tabletop protection.

Mogogo’s Modular System is based on a wide range of individual parts, which can be stacked up & assembled to design a variety of stations.

Our Modular System stems from the simple idea that your F&B Furniture should adapt to your ever-varying needs during different event sizes, types, and themes. It allows you to pick and choose basic elements such as tabletops, leg segments, casters, shelves, and other add-ons.

Endless vertical and horizontal possibilities exist while choosing between our functional tabletops: from classic to cooking, warming and bar tabletops, or picking your material and finishes of choice. Mogogo’s Modular System gifts you an ocean of possibilities.
Create your Modular Stations by choosing from the different colors and finishes available. Simply choose your preferred design combination by inserting the corresponding letter to its designated space as demonstrated below.

SERVICE CART  C-RNX-01-MSXX  /  C-RNX-01-GSXX
(shown with optional Charcoal-Black quick covers)
Mogogo is led by designers and chefs that are driven by the desire to introduce new, beautiful, and functional products to the market, with an environmentally friendly philosophy in mind.
ABOUT ROLL‘N COLLECTION

Tableside Service is considered an exquisite service in the hospitality industry. A smaller unit on wheels with a sleek design, which is the ideal serving sidekick for your staff in any dining environment. Just like everything designed by Mogogo, the Roll‘n Service Cart collection starts with a core element. It’s an elegant and functional cart with high-density BHP panels, heavy duty casters, and a slick vinyl covered handle for easier and more comfortable navigation.

From there, Mogogo’s designers developed a series of add-ons that can easily transform your service cart into a cheese serving cart, cocktail cart, and much more.

MATERIALS

Roll‘n tops are made of our innovative BHP material. BHP is a newly composed material that arrived after two years of intense R&D. It merges layers of High-Pressure Laminate with a Vertical Bamboo core (Mogogo’s expertise) creating a lighter yet durable panel that offers new textures and colors. This new material combines the advantages of both bamboo and HPL, perfect for the ever-changing needs of the hospitality industry. Available in a variety of finishes that resemble natural materials such as Nero Marquina Marble, Bengali Mango Wood, and Grey Slate, making it easy to match with any event and decor. The innovative bamboo core of the BHP goes in line with Mogogo’s sustainability motto while the HPL’s outer coating is durable for different environments, hygienic, and easy to clean.

Roll‘n segments come in 2 finishes—brushed stainless steel (4) and brushed brass (5).

Easily cover up parts of your service carts with our original quick covers (6). Both durable and easy to clean, they come in 4 different color options allowing you to easily match any of your event color schemes.

All service carts come with a hand-stitched vinyl leather (7) handle which gives the carts a luxurious look and a comfortable functionality.
HOW IT WORKS

Delivered to you in flat packaging with all the needed parts, Roll’n Service Cart is specially designed for easy and fast assembly.

With a multi-purpose cart in mind, Mogogo’s Service Cart was developed alongside a series of add-ons which can easily transform your standard service cart into a cheese serving cart, wine cart, cocktail cart, and more for any tableside service occasion. Add or remove Mogogo’s add-ons, such as a cutting board, top rail border, wine glass holder, or ice and champagne bucket depending on your specific food service delivery need.

Functionality is key when it comes to the daily challenges of Food & Beverage professionals. For this specific reason, Mogogo’s quick-covers are essential to quickly conceal the two lower layers for dishes or additional items you would like to hide from your guests in the most elegant way.
COLOR COMBINATIONS

While the brass has a more elegant look the stainless gives off a more modern one. All combinations are possible.

With the different finishes, color combinations and add-ons, you can easily change the vibe and take your service carts to a whole new level.

* While the brass has a more elegant look the stainless gives off a more modern one. All combinations are possible.

SERVICE CART

A companion to Mogogo’s full product range or a standalone cart for tabletop service, room service, display, or any other occasion.

The three-level service cart is equipped with panel bumpers to avoid unwanted wear and tear to the cart tops. Heavy-duty casters and a comfortable handle will allow easy navigation of the Roll’n Cart around any tricky event.

A PROFESSIONAL FOOD & BEVERAGE FURNITURE COMPANY

WE PUSH THE CREATIVE ENVELOPE OF FUNCTION AND INNOVATION.

BORN FROM AN INTERDISCIPLINARY PASSION FOR Design x Food

Mogogo is led by designers and chefs that are driven by the desire to introduce new, beautiful, and functional products to the market, with an environmentally friendly philosophy in mind.
ABOUT POLO COLLECTION

Mogogo’s PoLo Tables are lightweight and extremely versatile, designed using our unique Modular System.

Available in Round, Square, or Oval Tabletop shapes, they offer a wide variety of combinations.

This approach allows for the same coffee table to be effortlessly transformed into a bistro or bar table and then into a champagne or dessert station in no time. It provides you with flexibility while also retaining simplicity and style.

MATERIALS

PoLo tops are made of our innovative BHP material. BHP is a newly composed material that arrived after two years of intense R&D. It merges layers of High-Pressure Laminate with a Vertical Bamboo core (Mogogo’s expertise) creating a lighter yet durable panel that offers new textures and colors. This new material combines the advantages of both bamboo and HPL, perfect for the ever-changing needs of the hospitality industry. Available in a variety of finishes that resemble natural materials such as Bengali Mango Wood, Nero Marquina Marble, and Grey Slate (1-3), making it easy to match with any event and decor.

The innovative bamboo core of the BHP goes in line with Mogogo’s sustainability motto while the HPL’s outer coating is durable for different environments, hygienic, and easy to clean.

PoLo segments come in 2 finishes—brushed stainless steel (4) and brushed brass (5).
HOW IT WORKS

Mogogo’s PoLo Tables’ industrial design is based on the Modular System. Delivered to you in flat packaging, it is easy and fast to assemble & disassemble. Composed of the same individual components (tabletops, leg segments, and mid-part segments) it gives you the flexibility to transform the same coffee table into a bistro table, a bar table, or a display table.

PoLo’s cross base and adjustable legs give it stability and the flexibility to adapt your table to any terrain. The clean one pole design makes this table blend easily into any design scheme and event space.

Highly versatile while offering durability and functionality, PoLo Tables enable you to use your creativity. Play with heights, tabletop shapes (round, square, or oval), different finishes, and add shelving layers as needed for additional display.
Different colors, shapes, and heights make the PoLo table perfect for multiple combinations and styles. Completely transform the atmosphere of your event by changing the tables’ heights. From bar to bistro to coffee tables, try a combination to maximize space.

* Mix Nero Marquina Marble finish with brass for an elegant, classy look, while Grey slate with stainless gives it an urban and outdoor feel.
In addition to being lightweight, quickly assembled, and versatile while offering durability, Mogogo Coffee Tables can be placed anywhere in the room, for both decorative and service purposes.

Combined with other available heights and tabletop shape options, you can create interesting visual variations in elevations to further add to your stylish display.
MATERIAL GUIDE

Customize your PoLo Tables by choosing from the different colors and finishes available. Simply choose your preferred design combination by inserting the corresponding letter to its designated space as demonstrated below.

EXAMPLE:

ROUND COFFEE TABLE
Beautiful round coffee table for any small and intimate setup.

C-PFR-01-

SQUARE COFFEE TABLE
An elegant and stylish squared coffee table that will fit perfectly in any setup.

C-PFS-01-

OVAL COFFEE TABLE
Ideal oval shaped top that is bigger in size, making it perfect for a lounge or food display.

C-PPV-01-
BISTRO TABLES

The 30” (76 cm) table is the most common height and diameter utilized for dining tables in the hospitality industry. Available in both round and square tabletop shapes, the Mogogo PoLo Tables unique modular system allows to be transformed into a highboy or three-tier dessert station in just a few steps.

Mogogo Bistro Tables are designed for a lightweight, stylish, and clean look, in addition to their flexible and functional properties.
Customize your PoLo Tables by choosing from the different colors and finishes available. Simply choose your preferred design combination by inserting the corresponding letter to its designated space as demonstrated below.

A PROFESSIONAL FOOD & BEVERAGE FURNITURE COMPANY

WE PUSH THE CREATIVE ENVELOPE OF FUNCTION AND INNOVATION.

BORN FROM AN INTERDISCIPLINARY PASSION FOR Design x Food

Mogogo is led by designers and chefs that are driven by the desire to introduce new, beautiful, and functional products to the market, with an environmentally friendly philosophy in mind.
MATERIALS

CliX tops are made of our innovative BHP material. BHP is a newly composed material that arrived after two years of intense R&D. It merges layers of High-Pressure Laminate with a Vertical Bamboo core (Mogogo’s expertise) creating a lighter yet durable panel that offers new textures and colors. This new material combines the advantages of both bamboo and HPL, perfect for the ever-changing needs of the hospitality industry. Available in a variety of finishes that resemble natural materials such as Grey Slate, Nero Marquina Marble, and Bengali Mango Wood (1-3), CliX makes it easy to match with any event and decor.

The innovative bamboo core of the BHP goes in line with Mogogo’s sustainability motto while the HPL’s outer coating is durable for different environments, hygienic, and easy to clean.

CliX bases come in 2 modern chic finishes—brushed stainless steel (4) and brushed brass (5).

ABOUT CLIX COLLECTION

Like everything designed by Mogogo, CliX is both functional and beautiful, all while making the lives of our customers a little bit easier. CliX is inspired by the existing strengths of Mogogo’s modular buffet furniture while further exploring versatility and adaptability. From these two function-defining parameters came our patent-pending quick-lock mechanism. One click to attach and one twist to detach, CliX delivers a product that is easy to assemble and store.

Available in three different heights as well as three tabletop shapes each with three different finishes, CliX is another part of our quest to produce tools for professionals that combine maximum functionality with a refined design aesthetic.

CliX Tables redefine aesthetic and functional standards in the realm of F&B catering.
HOW IT WORKS

Our unique patent-pending quick-lock mechanism and universal base, for the CliX Tables collection, makes it easy to store, assemble, and disassemble: one click to attach and one twist to detach. With a multiplicity of tabletop/base combinations to choose from, CliX Tables provide you with an unprecedented array of display options. CliX Collection offers a variability of tabletop shapes and materials, as well as different base heights and finishes giving you the freedom to create an interesting visual landscape.

CliX Tables are an elegant design solution for any F&B operation. When you combine form and function, it just CliX.
CliX’s versatility allows for multiple color combinations, perfect for creating different vibes that are easily adaptable in multiple environments.

* Mix Nero Marquina Marble finish with brass for an elegant, classy look, while Grey slate with stainless gives it a more modern and sleek feel.
ClIX H30 embodies the most popular height for Catering Tables. Standard in height, but not in design: ClIX H30 instantly elevates the event atmosphere to something quite sophisticated and chic.

Available in round, square, and rectangle tabletops, ClIX H30 is an essential piece for any high end or laid back catering events; adding the perfect twist that clicks.

**H30" SQUARE TABLE** C-CVS-01-MSXX

**H30" RECTANGLE TABLE** C-CVG-01-WBXX

*Shown with optional Square BHP bottom shelves in a Bengali Mango Wood finish*
MATERIAL GUIDE

Customize your CLI工業 TABLES by choosing from the different colors and finishes available. Simply choose your preferred design combination by inserting the corresponding letter to its designated space as demonstrated below.

EXAMPLE:

C-CVR-01- W B XX

H30″ ROUND TABLE

CLI工业 H30″ | 76cm Base with a Round BHP top. Food displays will be at a whole other level with the CLI工业 catering tables.

C-CVR-01- G B XX

H30″ SQUARE TABLE

CLI工业 H30″ | 76cm Base with a Square BHP top. With these CLI工業 tables, put together an events’ buffet in just seconds.

C-CVS-01- M S XX

H30″ RECTANGLE TABLE

CLI工业 H30″ | 76cm Base with a Rectangle BHP top. Showcase delicious food on a larger and elegant CLI工業 Table.

C-CVG-01- W S XX

CLI工業 Tables
CIX H36 serves as the perfect intermediate between a Bar and Dining Table height.

Created to add further vertical diversity, it is a great addition to its other catering companions.

Available in round, square, and rectangle tabletops, CIX H36 completes the vision of a diverse and surprising visual landscape for any event.

DAY & NIGHT

CliX tables can help serve guests by the poolside in the morning, as well as gathering them around elegant bar tables in ballroom evening events.
Mogogo’s utility carts are designed for your convenience and mobility and are an integral part of the CliX system as they make storing and assembling the tables easy. Whether it is to pull out the tabletops, to push them through the halls, or get in and out of elevators, they make the behind the scenes of your time-sensitive events easier and give you an extra push on productivity.

Mogogo’s CiX Catering Tables Collection offers endless combinations with only two basic elements at its core: Tabletop and Base.

Tabletops are available in three shapes and three different materials. Table Bases are available in three heights and two stunning finishes. Bottom shelves are available in two shapes to add extra storage or display space.

Delivering on our promise of high functionality and diversity, the CiX Collection reveals a new paramount in product design for hospitality.
