SYSTEM

HIGH PROFILE ACRYLIC SNEEZE GUARD

ASSEMBLY INSTRUCTIONS

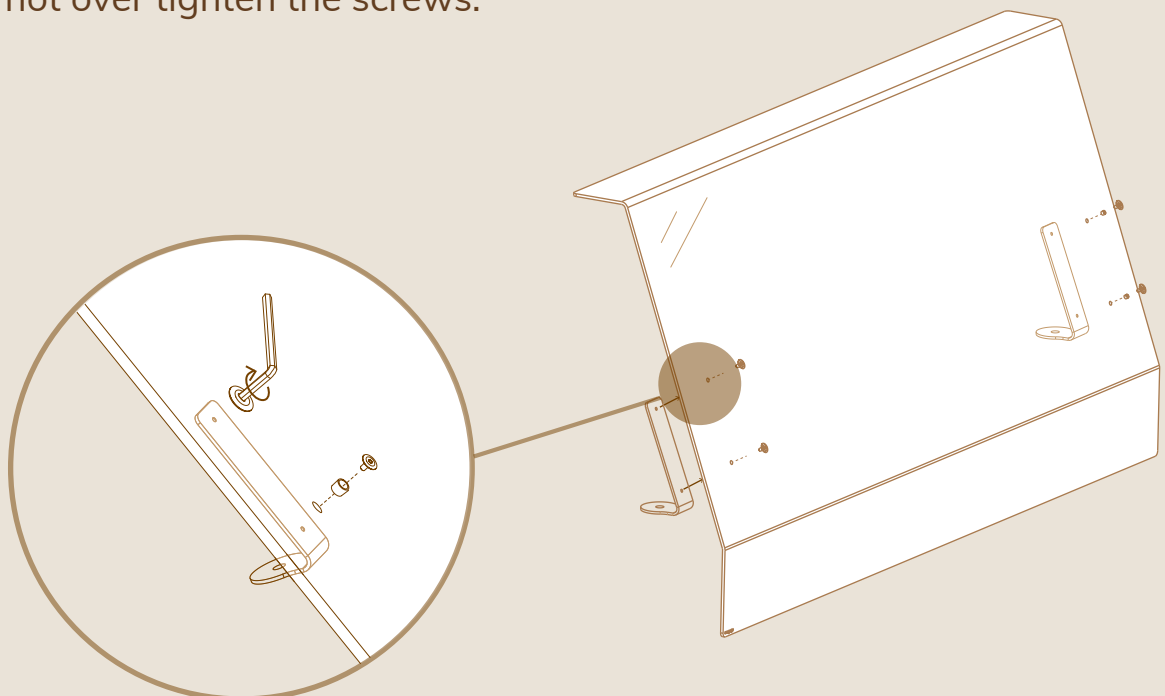

PARTS

ASSEMBLY

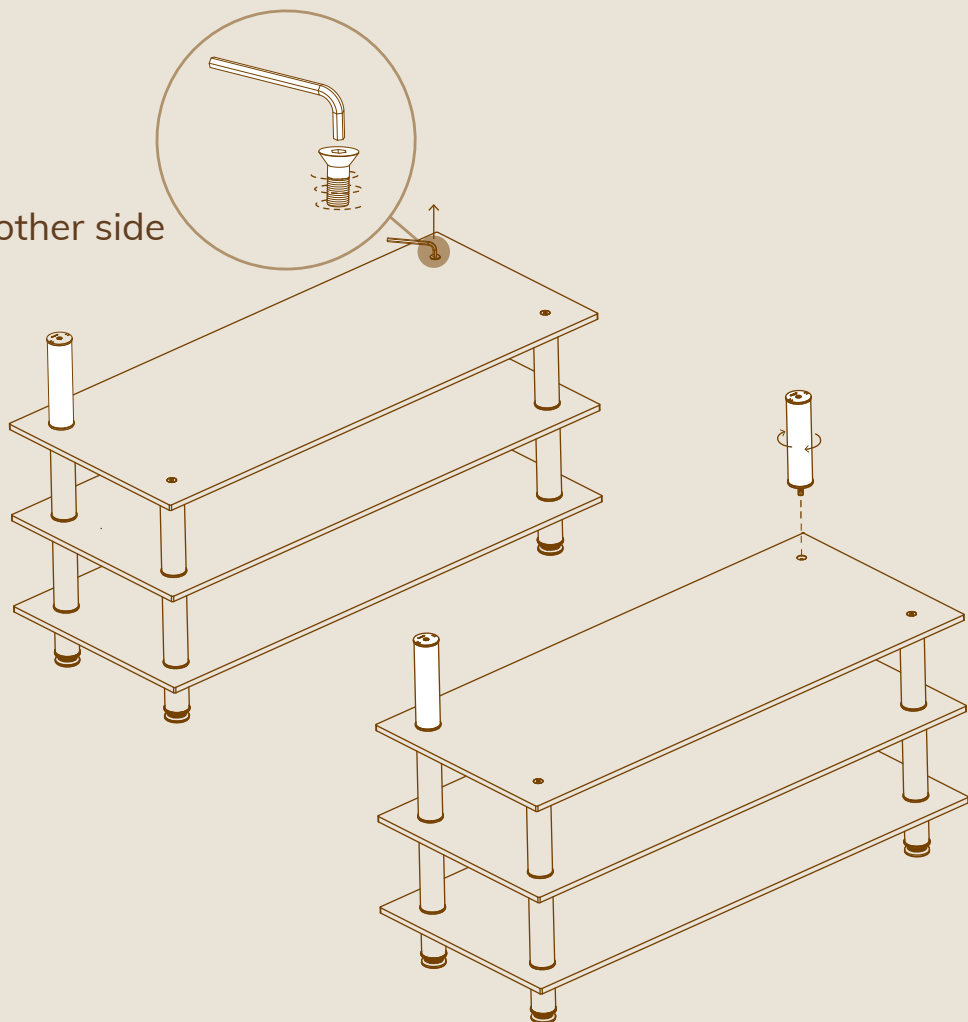

- 1 Use round cap M6 Allen screws.
Do not over tighten the screws.

2 Unscrew flat head screws and replace with the segment

3 repeat step 2 for other side

- 4** Place the sneeze guard on top of the segment.

- 5** Use the round cap M16 Allen screws supplied, to attach the connectors to the segments.

GREAT JOB, YOUR GOOD TO GO!

ATTENTION!

Clean breath guards with warm water and mild soap and rinse thoroughly with water. Dry with soft cloth to prevent water spots. You can also clean and polish with cleaners made specifically for acrylic, like Novus #1 or Brilliantize.

Dry with a soft sponge to prevent water spots.

- ✗ Never use abrasive or highly alkaline cleansers.
- ✗ Never scrape with razor blades or other sharp instruments.
- ✗ Never use benzene, acetone, or carbon tetrachloride.
- ✗ Never use cleaners such as Windex or 409.
